

ORDINANCE NO. 1410

AN ORDINANCE WHICH PROVIDES AMENDMENT TO THE CODE OF ORDINANCES OF THE CITY OF YUKON, OKLAHOMA BY AMENDING SECTIONS 204-51, 204-52 OF THE CODE OF ORDINANCES OF THE CITY OF YUKON BY ADOPTING THE INTERNATIONAL FUEL GAS CODE 2015 EDITION AND PROVIDING ADDITIONS, INSERTIONS, AND DELETIONS THERETO AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE COUNCIL FOR THE CITY OF YUKON, OKLAHOMA that the Code of Ordinances, City of Yukon, is hereby amended by adopting the International Fuel Gas Code and providing for additions, insertions, deletions and changes thereto as follows:

SECTION 1:

Sec. 204.51. International Fuel Gas Code Adopted.

That a certain document 3 copies of which are on file in the office of the City Clerk of the City of Yukon, being marked and designated as the International Fuel Gas Code 2015 edition, excluding the Appendixes, as published by the International Code Council, be and is hereby adopted as the Fuel Gas Code for the city for regulating and governing fuel gas systems and gas-fired appliances as herein provided, providing for the issuance of permits and collection of fees therefore; and each add all regulations, provisions, penalties, conditions and terms, as amended and modified by the Uniform Building Code Commission pursuant to 59 O.S. § 1000.23 as it may from time to time be amended and subsequent amendments as listed below of the Code of Ordinances, is hereby adopted as the Code of the City; as herein provided; and each and all regulations, provisions, penalties, conditions and terms of said Fuel Gas Code are hereby referred to, adopted, and made a part hereof, as it fully set out in this article with additions, insertions, deletions and changes.

Sec. 204-52 . Additions, deletions, etc. to International Fuel Gas Code.

CHAPTER 1 SCOPE AND ADMINISTRATION

101.1 Title is amended to insert the jurisdiction:

101.1 City of Yukon, State of Oklahoma

101.2.6 Work on gas piping systems is added to read as follows:

101.2.6 Work on gas piping systems. Repairs, additions, alterations, relocations and/or other work on any portion of gas piping systems regulated by the 2015

International Fuel Gas Code ® shall only be performed by a licensed Plumbing or Mechanical Contractor that is duly authorized by the State of Oklahoma and the City of Yukon to do gas work and whose licenses and registrations are current and active. A permit shall be obtained by the contractor prior to performing such work.

106.1.1. Annual Permit is amended to read as follows:

106.1.1. Annual Permit. An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already existing electrical, gas, mechanical or plumbing installation. The building official is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.
(OUBCC Amendment)

106.1.2. Annual permit records is amended to read as follows:

106.1.2. Annual permit records. The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The building official shall have access to such detailed records of alterations at all times. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.
(OUBCC Amendment)

106.6.2 Fee schedule is amended to insert:

106.6.2 Fee Schedule. Any mechanical and plumbing contractor who intends to erect, install, enlarge, alter, repair, remove, convert any fuel gas system and/or gas-fired appliance, the installation of which is regulated by this code, or to cause any such work be done, shall first make application to the code official and obtain the required permit and shall pay all such required permit fees and any additional fees. All such fees shall be set by resolution by the City Council of the City of Yukon.

108.4 Violation penalties is amended to insert:

108.4 Violations penalties. Any person who shall violate a provision of this code or who fails to comply with any of the requirements thereof or shall erect, construct, alter, repair or remove any fuel gas system and/or gas appliance in violation of detailed statement or plan submitted and approved hereunder, or of a permit or certificate issued hereunder, shall be guilty of an offense and upon conviction, shall be punished as provided in Section 1-7 of the Code of Ordinance.

Section 108.5 Stop work order is hereby added to read as follows:

108.5 Stop work order. Upon notice from the Development Services Director or designee, work on any mechanical system that is being done contrary to the provisions of this code or in a dangerous or unsafe manner shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property, the owner's agent or to the person doing the work. The notice shall state the conditions under which work is authorized to resume. Where an emergency exists, the Development Services Director or designee shall not be required to give a written notice prior to stopping the work. Any person who shall continue any work in or about the structure after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be guilty of an offense and upon conviction shall be punished as provided in Section 1-7 of the Code of Ordinances

CHAPTER 2 DEFINITIONS**The definition of a dispensing area has been added to read as follows:**

Dispensing Area. The appropriate hazardous (classified) locations for the fuel being dispensed in accordance with the National Electric Code – NFPA ® 70.

The definition of a main railroad track has been added to read as follows:

Main Railroad Track. That part of the railway, exclusive of switch tracks, branches, yards and terminals upon which trains are operated by timetable or train order or both.

(OUBCC Amendment)

CHAPTER 3 GENERAL REGULATIONS**306.6 Guards is added to read as follows:**

306.6 Guards. Guards shall be provided where various components that require service are located on a roof or elevated structure and have a condition as set forth in Sections 306.6.1 through 306.6.3. The top of the guard shall be located not less than 42 inches (1067 mm) above the elevated surface adjacent to the guard. The guard shall be constructed so as to prevent the passage of a 21-inch diameter (533 mm) sphere and shall comply with the loading requirements for guards specified in the International Building Code ®. Guards shall be provided at new components when added or replaced on existing roof or elevated structure and have a condition as set forth in Sections 306.6.1 through 306.6.3.

Exception:

When approved by the authority having jurisdiction, guards are not required where permanent fall arrest-restraint anchorage connector devices that comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed not more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of walking surfaces.

(OUBCC Amendment)

306.6.1. Roof edge is added to read as follows:

306.6.1 Roof edge. Guards complying with 306.1 shall be provided when components are located within 10 feet (3048 mm) of a roof edge or open side of a walking surface or elevated structure and such edge or open side is located more than 30 inches (762 mm) above the floor, roof or grade below. The guard shall extend not less than 30 inches (762 mm) beyond each end of the component that requires service.

(OUBCC Amendment)

306.6.2 Skylights are added to read as follows:

306.6.2 Skylights. Guards complying with Section 306.6 shall be provided when a skylight is within 10 (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the skylight.

Exception:

- a) Guard are not required when the skylight is located at least 42 inches (1067 mm) above the highest point of the walking surface adjacent to the skylight or component.
- b) Guards are not required if some other provision for skylight fall-thru protection is provided and approved by the authority having jurisdiction.

(OUBCC Amendment)

306.6.3 Roof hatch is added to read as follows:

306.6.3 Roof hatch. Guards complying with Section 306.6 shall be provided when a roof hatch is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the roof hatch. If the component is within 10 feet (3048 mm) of the ladder access side of the roof hatch, the guard shall incorporate a self-closing, self-latching gate. The gate shall have a top edge of not less than 42 inches (1067 mm) above the elevated surface adjacent to the gate and shall not allow the passage of a 21 inch (533 mm) sphere. If a roof hatch exists within 10 feet of a roof edge that is located more than 30 inches (762 mm) above the floor, roof or grade below and a new component that

requires services on that existing roof or elevated structure, than a guard complying with Section 306.6 shall be added between the existing roof hatch and the roof edge.

(OUBCC Amendment)

307.2.1 is amended to read as follows:

307.2.1 Condensate drains. Where condensing appliances are in locations subject to freezing conditions, the condensate drain line shall be protected from freezing in an approved manner and in accordance with manufacturer's installation instructions.

(OUBCC Amendment)

310.1.1 is amended to read as follows:

310.1.1 CSST. Corrugated stainless steel (CSST) gas piping systems and piping systems containing one or more segments of CSST shall be bonded to the electrical service grounding electrode system or, where provided, the lightning protection grounding electrode system.

Exception:

Corrugated stainless steel gas piping or tubing products or systems that have been designed, manufactured and listed for installation without bonding to the grounding electrode system, shall be permitted to be installed in accordance with the manufacturer's installation instructions.

(OUBCC Amendment)

CHAPTER 4 GAS PIPING INSTALLATIONS

404.10.1 Insulated union at building riser is added to read as follows:

404.10.1 Insulated union at building riser. All underground metallic gas piping shall have an insulated union above ground level before the service enters the building. Where an anode bag is required, the anode lead wire shall be connected below the union.

404.12 Minimum burial depth is added to read as follows:

404.12 Minimum burial depth. Underground piping systems shall be installed a minimum depth of 18 inches (457 mm) below grade, except as provided for in Section 404.12.1.

404.13.1 Gas piping in same ditch with other piping is added to read as follows:

404.13.1 Gas piping in same ditch with other piping. Gas piping may be installed in the same ditch with other piping such as water, sewer, electrical or drainage piping provided the installation is approved and a minimum of six inches of horizontal separation of the different piping systems is maintained.

404.15.1 Future gas branches is added to read as follows:

404.15.1 *Future gas branches.* All gas branches shall have a gas shut off installed and shall be capped gas tight. Gas branches carrying elevated pressure shall be regulated. All gas branches shall be approved.

Section 406.4.1 Test pressure is added to read as follows:

Section 406.4.1 Test pressure. The test pressure to be used shall be not less than one and one-half times the proposed maximum working pressure, irrespective of design pressure/ The pressured used to test a gas piping system shall not be less than 15 PSIG with a 30 lb. test gauge. The test duration shall be not less than 15 minutes.

[F] 412.5 Attendants is added to read as follows:

[F] 412.5 *Attendants.* Motor fuel-dispensing operations shall be conducted by qualified attendants or in accordance with Section 412.9 by persons trained in the proper handling of LP-gas.

Exception:

When the dispensing equipment meets the guidelines of NFPA ® 58 for "low emission transfer" an attendant is not required.
(OUBCC Amendment)

[F] 412.6.1 Low emission transfer is added to read as follows:

[F] 412.6.1 *Low emission transfer.* When the dispensing equipment is installed in accordance with Section 6.28.5 of NFPA ® 58 for "low emission transfer," the transfer distance requirements in Table 6.5.2.1 and Section 6.25.4.3(1) of NFPA ® 58 shall be reduced by one-half.
(OUBCC Amendment)

[F] 412.9 Public fueling of motor vehicles is added to read as follows:

[F] 412.9 Public fueling of motor vehicles.

- a) Self-service LP-gas dispensing systems, including key, code and card lock dispensing systems, shall be limited to the filling of permanently mounted containers providing fuel to the LP-gas-powered vehicle.
- b) The requirements for self-service LP-gas dispensing systems shall be in accordance with the following:

1. The arrangement and operation of the transfer of product into a vehicle shall be in accordance with this section and Chapter 61 of the International Fire Code ®.
2. The system shall be provided with an emergency shut-off switch located within 100 feet (30480 mm) of, but not less than 20 feet (6096 mm) from dispensers.
3. The owner of the LP-gas motor fuel-dispensing facility or the owner's designee shall provide for the safe operation of the system and the training of users.

Exception:

If the LP-gas motor fuel dispensing facility meets the requirements of a low emission transfer station per NFPA ® 58, then training of the users is not the responsibility of the facility.

4. The dispenser and hose-end valve shall release not more than 4 cubic centimeters of liquid to the atmosphere upon breaking the connection with the fill valve on the vehicle.
5. Portable fire extinguishers shall be provided in accordance with Section 2305.5 of the International Fire Code ®.
6. Warning signs shall be provided in accordance with Section 2305.6 of the International Fire Code ®.
7. The area around the dispenser shall be maintained in accordance with Section 2305.7 of the International Fire Code ®

(OUBCC Amendment)

[F] 413.3.2 Warning signs is added to read as follows:

[F] 413.3.2 *Warning signs.* Warning signs complying with Section 310 of the International Fire Code ® shall be posted as follows:

- a) Warning sign(s) shall be conspicuously posted within sight of each dispenser in the fuel dispensing area and shall state the following:
 1. No smoking
 2. Shut off motor
 3. Flammable Gas
 4. Natural gas vehicle fuel cylinders shall be inspected at intervals not exceeding 3 years or 36,000 miles to ensure safe operation of the vehicle
 5. Natural gas fuel cylinders past their end-of-life date shall not be refueled and shall be removed from service.
 - b) A warning sign with the words "NO SMOKING, FLAMMABLE GAS" shall be posted in all compressor and storage areas.
 - c) The lettering on the sign shall be legible and large enough to be visible from each point of transfer.
 - d) The service pressure of each dispenser shall be posted in view of the operator
- (OUBCC Amendment)

[F] 413.5 Private fueling of motor vehicles is added to read as follows:

[F] 413.5 Private fueling of motor vehicles.

- a) Self-service CNG-dispensing systems, including key, code and card lock dispensing systems, shall be limited to the filling of approved, permanently mounted fuel containers.
- b) In addition to the requirements in the International Fuel Code®, the owner of a self-service CNG-dispensing facility shall ensure the safe operation of the system.

(OUBCC Amendment)

[F] 413.8 Emergency shutdown devices is added to read as follows:

[F] 413.8 Emergency shutdown devices. A remote and local emergency manual shutdown device shall be provided. Upon activation, the emergency shutdown system shall automatically close valves between the main gas supply and the compressor and between the storage containers and dispensers, and automatically shut off the power supply to the compressor and the following associated devices: dispensing enclosures; remote pumps; power, control, and signal circuits; and electrical equipment in the hazardous (classified) locations surrounding the fuel dispensing enclosures. All labeled emergency shutdown devices shall be interconnected, whether required or not. Resetting from an emergency shutoff condition shall require manual intervention and the manner of resetting shall be approved by the Authority Having Jurisdiction. Exception: In time-fill applications, in lieu of a defined remote and local emergency manual shutdown device, an emergency manual shutdown device shall be provided within 50 feet (15 240 mm) of each fixed point of dispensing hose attachment and located inside and outside the compressor area within 10 feet (3048 mm) of the main access to the compressor area.

(OUBCC Amendment)

413.8.1 Remote emergency shutdown device is added to read as follows:

413.8.1 Remote emergency shutdown device. A remote emergency manual shutdown device shall be located within 100 feet (30 480 mm) of, but not less than 20 feet (6096 mm) from all dispensing enclosures and shall be provided inside and outside the compressor area within 10 feet (3048 mm) of the main access to the compressor area. Exception: A remote emergency manual shutdown device may be located greater than 100 feet (30 480 mm) from one or more dispensing enclosures when within line of sight of the dispensing enclosures and approved by the Development Services Director. (OUBCC Amendment)

413.8.2 Local emergency shutdown device is added to read as follows:

413.8.2 Local emergency shutdown device. A local emergency manual shutdown device shall be located within 15 feet (4572 mm) of each dispensing enclosure. (OUBCC Amendment)

Secs. 204-53 – 204-65 Reserved.

SECTION 2:

All other provisions established by this section shall remain the same, as if specifically set out herein.

SECTION 3:

That if any section, subsection, sentence, clause or phrase of this legislation is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The City of Yukon hereby declares that it would have passed this law, and each section, subsection, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional.

SECTION 2: EMERGENCY:

WHEREAS, it being immediately necessary for the preservation of the peace, health, safety and public good of the City of Yukon and the inhabitants thereof that the provisions of this ordinance be put into full force and effect, an emergency is hereby declared to exist by reason whereof this ordinance shall take effect, and be in full force from and after its passage, as provided by law.

PASSED AND APPROVED this 18TH day of AUGUST, 2020, with the Emergency Clause passed separately.
