

Meet **Libby**,

the friendly new OverDrive app

Install the app “Libby, by OverDrive Labs” free from your device’s app store.

- Tap: **Find my library**. Libby predicts your library by your location!
- **Add your card**: Enter your library card number without the “P” and your last name is the password.
- Important: Tap **Download Settings** in **Menu** ☰ to set your preferences for downloading titles.
(Recommended: **Download Everything** and **Wi-Fi Only**.) Explore other Menu options at a later time.

Libby’s simple design

In the footer

- Tap **Library** to search the Mabel C. Fry Public Library collection, **OK Virtual Library**.
- Tap **Shelf** to find your Loans and Holds.

When you find an available book or audiobook you want, tap **Borrow**, then **Go to Shelf**. By default, titles are automatically downloaded for offline use as soon as you borrow them. You may change this at Menu ☰.

Send to Kindle: At **Shelf**, tap your book cover, then **Send to Device**. You are then directed to amazon.com.

Finding a Book or Audiobook

- **Tap a list title**, such as “Just Added” or one of the “Popular Collections.” Tap a link above your results to narrow your search to *books*, *audiobooks*, *fiction*, *nonfiction*, etc. Tap  **REFINE** to sort or limit your search by Availability, etc.

- **Search the catalog**. Type a title, author or keyword in the search box. Tap **MORE** for advanced searching.

- **+ Set your search preferences**. You can screen out things you’re not interested in. Tap + to set preferences for all of your searches. Your settings will hold until you opt out of them, or override with

 **REFINE**
