

Eco Actions

Happy New Year

If you need some ideas for resolutions, look no further!

Water pollution is compounded by the little decisions that we make every day. Unfortunately trash, chemicals and pet waste make their way into local streams and we barely notice it until all of a sudden a trash pile emerges in a place where we least expect it.

Resolutions For Cleaner Water In 2020

- **Create New Habits**
Bring your own coffee mug.
- **Use Less Stuff**
Especially products with chemicals.
- **Clean Up After Pets**
- **Generate Less Waste**
Refuse, Reduce, Reuse, and Recycle
- **Say No To Plastic Bags**
Say yes to re-usable grocery bags.
- **Volunteer For Clean-up Events**

Small changes can make a big difference.

These eco-actions help create a cleaner and healthier environment.
