

Eco Actions

Fall Tips

Leaves - Please rake and mulch or bag leaves. Do not blow them in the street; this can clog storm drains, trap debris and cause water quality issues.

Garage Clean Out - Recycle cardboard boxes, old newspapers, cans and plastics. Old household and automobile chemicals can be processed at a local household hazardous waste facility, instead of being thrown in with daily trash and potentially causing a fire hazard or chemical reaction.

Auto Maintenance - Check vehicle maintenance schedules, check tire tread, top off fluids, check for leaks and make repairs before the winter. Tire blow outs and fluid leaks become road pollution that usually end up in a local stream or tributary.
