

ORDINANCE NO. 1411

AN ORDINANCE WHICH PROVIDES AMENDMENT TO THE CODE OF ORDINANCES OF THE CITY OF YUKON, OKLAHOMA BY AMENDING SECTIONS 38-19, 38-20, 38-21, 38-41, 38-42 AND 38-43 BY ADOPTING THE 2015 INTERNATIONAL FIRE CODE BY AMENDING SECTIONS 101.1, 105.1.1, 105.1.2, 109.4, 111.4, DEFINITIONS, 308.1.6.3, 508.1.3, 903.2.7, 903.2.9 S-1, 907.2.3, 1010.1.10, 1015.6, 1015.6.1, 1015.6.2, 1015.6.3, 1015.7, 1101.1, 1103.4.2, 1104.1, 1104.18, 2301.7, 2302, 2303.1, 2303.2.1, 2303.2.2, 2304.3.7, 2307.3, 2307.4.1, 2307.7, 2308.3.2, 2308.4, 2308.7, 2308.7.1, 2308.7.20, 2311.4.3, 2311.5, 2311.5.1, 2311.7, 2311.7.1.1, 5501.1, 5705.5, 6106.1, 6106.2 PROVIDING FEES BE SET BY RESOLUTION OF THE CITY COUNCIL AND DECLARING AN EMERGENCY

BE IT ORDAINED BY THE COUNCIL FOR THE CITY OF YUKON, OKLAHOMA that the Code of Ordinances, City of Yukon, is hereby amended by adopting the International Fire Code and providing for additions, insertions, and deletions thereto as follows:

Chapter 38 - FIRE PREVENTION AND PROTECTION

SECTION 1:

ARTICLE I – GENERAL

Sec. 38-19. International Fire Code adopted.

That a certain document 3 copies of which are on file in the office of the City Clerk of the City of Yukon, being marked and designated as the International Fire Code® 2015 edition, excluding the Appendixes, as published by the International Code Council, be and is hereby adopted as the Fire Prevention and Protection Code for the city for regulating and governing fire prevention and protection as herein provided, providing for the issuance of permits and collection of fees therefore; and each and all regulations, provisions, penalties, conditions and terms, as amended and modified by the Uniform Building Code Commission pursuant to 59 O.S. § 1000.23 as it may from time to time be amended and subsequent amendments as listed below of the City of Yukon Code of Ordinance is hereby adopted as the Code of the City as herein provided; and each and all regulations, provisions, penalties, conditions and terms of said fire code are hereby referred to, adopted, and made a part hereof, as if fully set out in this article with additions, insertions, deletions and changes.

Sec. 38-20. - Office of fire inspector created; general powers and duties.

The office of the fire inspector is hereby created within the department of Development Services. The Development Services Director shall appoint the fire

inspector and he may hold another position in the city government. The fire inspector shall have the powers and duties prescribed by the fire code adopted by this article. It shall be their duty to implement, administer and enforce all laws, ordinances, codes, rules and regulations related to the hazard of fire and explosion arising from the storage, handling or use of structures, materials or devices, conditions hazardous to life, property or public welfare in the occupancy of structures or premises, fire hazards in the structure or on the premises from occupancy or operation, matters related to the construction, extension, repair, alteration or removal of fire suppression or alarm systems and conditions affecting the safety of fire fighters and emergency responders during emergency operations.

ARTICLE II – FIRE PREVENTION CODE

Sec. 38-21. Additions, deletions, etc. to International Fire Code.

CHAPTER 1 SCOPE AND ADMINISTRATION

[A] 101.1 Title is hereby amended to insert the jurisdiction:

[A] 101.1 Title. City of Yukon, State of Oklahoma

[A] 105.1.1 Annual permit is hereby amended to read as follows:

[A] 105.1.1 *Annual permit.* An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already approved electrical, gas, mechanical or plumbing installation. The Development Services Director or designee is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the application for the permit.

(OUBCC Amendment)

[A] 105.1.2 Annual permit records is hereby amended to read as follows:

[A] 105.1.2 *Annual permit records.* The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The building official shall have access to such detailed records of alterations at all times. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the City of Yukon.

(OUBCC Amendment)

[A] 109.4 Violations and Penalties is hereby amended to read as follows:

[A] *109.4 Violations and Penalties.* Any person who shall violate a provision of this code or who fails to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of this code or in violation of a detailed statement or plan submitted and approved hereunder, or of a permit or certificate issued hereunder, shall be guilty of an offense and upon conviction shall be punished as provided in section 1-7 of the Code of Ordinances.
(OUBCC Amendment)

[A] 111.4 Stop work orders is hereby amended to read as follows:

[A] *111.4 Stop work orders.* Upon notice from the Development Services Director or designee, that mechanical work is being performed contrary to the provisions of this code or in a dangerous or unsafe manner, such work shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property or to the owner's authorized agent or to the person doing the work. The notice shall state the conditions under which work is authorized to resume. Where an emergency exists, the Development Services Director or designee shall not be required to give a written notice prior to stopping the work. Any person who shall continue any work on the system after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be guilty of an offense and upon conviction shall be punished as provided in Section 1-7 of the Code of Ordinances.

[A] 113.1 Fee schedule is amended to read as follows:

[A] *113.1 Fee schedule.* Any contractor who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any electrical, gas, mechanical, or plumbing system, the installation of which is regulated by this Code, or to cause any such work to be done, shall first make application to the Development Services Director and obtain the required permit and shall pay all such required permit fees and additionally required fees. All such permit fees shall be set by resolution by the City Council of the City of Yukon.

CHAPTER 2 DEFINITIONS**The definition of an AUTHORITY HAVING JURISDICTION is hereby added to read as follows:**

Authority Having Jurisdiction. An organization, office or individual responsible for enforcing the requirements of the State Adopted Building Codes, including the prior authorization or approval of any equipment, materials, installations or procedures used in all or part of the construction of a new or alteration or renovation of an existing building or structure, including integral finishes, fixtures and building system therein.
(OUBCC Amendment)

The definition of a DISPENSING AREA is hereby added to read as follows:

Dispensing Area. The appropriate hazardous (classified) locations for the fuel being dispensed in accordance with the National Electrical Code ® - NFPA ® 70.
(OUBCC Amendment)

The definition of a MAIN RAILROAD TRACK is hereby added to read as follows:

Main Railroad Track. That part of the railway, exclusive of switch tracks, branches, yards and terminals upon which trains are operated by timetable or train order or both.
(OUBCC Amendment)

The definition for Residential Group R-3 is hereby amended to read as follows:

[BG] *Residential Group R-3.* Residential R-3 occupancies where occupants are primarily permanent in nature and not classified as Group R-1, R-2, R-5 or I including Boarding houses (non-transient) with 16 or fewer occupants, Boarding houses (transient) with 10 or fewer occupants, Buildings that do not contain more than two dwelling units, Care facilities that provide accommodations for five or fewer persons receiving care, Congregate living facilities (non-transient with 16 or fewer occupants), Congregate living facilities (transient) with 10 or fewer occupants and Lodging houses with four or fewer guest rooms.

(A)[BG] Care facilities within a dwelling. Care facilities for five or fewer persons receiving care that are within a single-family dwelling are permitted to comply with the IRC ® provided an automatic sprinkler system is installed in accordance with Section 903.3.1.3 or Section P2904 of the IRC®.

(B) [BG] Lodging houses. Owner-occupied lodging houses with four or fewer guest rooms shall be permitted to be constructed in accordance with the IRC ®.
(OUBCC Amendment)

The definition of SELF-SERVICE STORAGE FACILITY from the International Building Code ® 2015 Edition (Section 202) is hereby added to read as follows:

Self-Service Storage Facility. Real property designed and used for the purpose of renting or leasing individual storage spaces to customers for the purpose of storing and removing personal property on a self-service basis
(OUBCC Amendment)

CHAPTER 3 GENERAL REQUIREMENTS**Section 308.1.6.3 Sky lanterns is hereby amended to read as follows:**

308.1.6.3 Sky lanterns. A person shall not release or cause to be release a sky lantern in the State of Oklahoma per Title 68 O.S. § 1624.1.
(OUBCC Amendment)

CHAPTER 5 FIRE SERVICE FEATURES

Section 508.1.3 Size is hereby amended to read as follows:

508.1.3 Size. The fire command center shall be a minimum of 200 square feet (19 square meters) in area with a minimum dimension of 10 feet (3048 mm).

Exception:

When approved by the fire code official the fire command center can be reduced in size to not less than a minimum of 96 square feet (9 square meters) with a minimum dimension of 8 feet (2438 mm).

CHAPTER 9 FIRE PROTECTION SYSTEMS

Section 903.2.7 Group M is hereby amended to read as follows:

903.2.7 Group M. An automatic sprinkler system shall be provided throughout buildings containing a Group M occupancy where one of the following conditions exists:

1. A Group M fire area exceed 12,000 square feet (1115 square meters),
2. A Group M fire area is located more than three stories above grade plane,
3. The combined area of all Group M fire areas on all floors, including any mezzanines, exceeds 24,000 square feet (2230 square meters) or
4. A Group M occupancy where the cumulative area used for the display and sale of upholstered furniture or mattresses exceeds 5,000 square feet (464 square meters).

(OUBCC Amendment)

Section 903.2.9 Group S-1 is hereby amended to read as follows:

903.2.9 S-1. An automatic sprinkler system shall be provided throughout all buildings containing a Group- S-1 occupancy where one of the following conditions exists:

1. A Group S-1 fire area exceeds 12,000 square feet (1115 square meters),
2. A Group S-1 fire area is located more than three stories above grade plane,
3. The combined area of all Group S-1 fire areas on all floors, including any mezzanines, exceeds 24,000 square feet (2230 square meters),
4. A Group S-1 fire area used for the storage of commercial motor vehicles where the fire area exceeds 5,000 square feet (464 square meters), or
5. A Group S-1 occupancy used for the storage of upholstered furniture or mattresses exceeds 2,500 square feet (232 square meters).

Exception:

Self-service storage facility where the fire area is less than 5,000 square feet (464 square meters).
(OUBCC Amendment)

Section 907.2.3 Group E is hereby amended to read as follows:

907.2.3 Group E. A manual fire alarm system that activates the occupant notification signal in accordance with Section 907.5 and installed in accordance with 907.6 shall be installed in Group E occupancies. When automatic sprinkler systems or smoke detectors are installed such systems or detectors shall be connected to the building fire alarm system.

Exceptions:

- a) A manual fire alarm system is not required in Group E occupancies with an occupant load of 50 or less.
 - b) Manual fire alarm boxes are not required in Group E occupancies where all of the following apply:
 - 1. Interior corridors are protected by smoke detectors
 - 2. Auditoriums, cafeterias, gymnasiums or similar areas are protected by heat detectors or other approved detection devices.
 - 3. Shop and laboratories involving dusts or vapors are protected by heat detectors or other approved detection devices.
 - 4. The capability to activate the evacuation signal from a central point is provided.
 - 5. In buildings where normally occupied spaces are provided with a two-way communication system between such spaces and constantly attended receiving station from where a general evacuation alarm can be sounded, except in locations specifically designated by the fire code official.
 - c) Manual fire alarm boxes shall not be required in Group E occupancies where all the following apply:
 - 1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1.
 - 2. The fire alarm system will activate on sprinkler water flow.
 - 3. Manual activation is provided from a normally occupied location.
- (OUBCC Amendment)

CHAPTER 10 MEANS OF EGRESS

Section 1010.1.10 Panic and fire exit hardware is hereby amended to read as follows:

1010.1.10 *Panic and fire exit hardware.* Doors serving Group H occupancy and doors serving rooms or spaces with an occupant load of 50 or more in a group A or E occupancy shall not be provided with a latch or lock other than panic hardware or fire exit hardware.

Exceptions:

- a) A main exit of a Group A occupancy shall be permitted to have locking hardware in accordance with Section 1010.1.9.3, Item 2.
- b) Doors serving a Group A or E occupancy shall be permitted to be electromagnetically locked in accordance with Section 1010.1.9.9.

Electrical rooms and working spaces with equipment operating at more than 600 volts, nominal, and equipment operating at 600 volts or less, nominal and rated 800 amperes or more and that contain overcurrent devices, switching devices or control devices with exit or exit access doors, shall be equipped with panic hardware or fire exit hardware. The doors shall swing in the direction of egress travel.

Exception: Personnel entrance to and egress from doors of the electrical equipment working spaces that are greater than 25 feet (7.6 m) from the nearest edge of the electrical equipment.

(OUBCC Amendment)

Section 1015.6 Mechanical equipment systems and devices is hereby amended to read as follows:

1015.6 Mechanical equipment, systems and devices. Guards shall be provided where various components that require services are located on a roof or elevated structure and have a condition as set forth in Sections 1015.6.1 through 1015.6.3. The guard shall be constructed so as to prevent the passage of a sphere 21 inches (533 mm) in diameter. Exception: When approved by the authority having jurisdiction, guards are not required where permanent fall arrest/restraint anchorage connector devices that comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed not more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of walking surfaces.

(OUBCC Amendment)

Section 1015.6.1 Roof edge is hereby added to read as follows:

1015.6.1 Roof edge. Guards shall be provided when components are located within 10 feet (3048 mm) of a roof edge or open side of a walking surface or elevated structure and such edge or open side is located more than 30 inches (762 mm) above the floor, roof, or grade below. The guard shall extend not less than 30 inches (762 mm) beyond each end of the component that requires service.

(OUBCC Amendment)

Section 1015.6.2 Skylights is hereby added to read as follows:

1015.6.2 Skylights. Guards shall be provided when a skylight is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the skylight.

Exceptions:

- a) Guards are not required when the skylight is located at least 42 inches (1067 mm) above the highest point of the walking surface adjacent to the skylight or component.
- b) Guards are not required if some other provision for skylight fall-thru protection is provided and approved by the authority having jurisdiction.

(OUBCC Amendment)

Section 1015.6.3 Roof Hatch is hereby added to read as follows:

1015.6.3 Roof hatch. Guards shall be provided when a roof hatch is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the roof hatch. If the component is within 10 feet (3048 mm) of the ladder access side of the roof hatch, the guard shall incorporate a self-closing, self-latching gate. The gate shall have a top edge of not less than 42 inches (1067 mm) above the elevated surface adjacent to the gate and shall not allow the passage of a 21 inch (533 mm) sphere.

(OUBCC Amendment)

Section 1015.7 Roof access is hereby amended to read as follows:

1015.7 Roof access. Guards shall be provided where the roof hatch opening is located within 10 feet (3048 mm) of a roof edge or open side of a walking surface and such edge or open side is located more than 30 inches (762 mm) above the floor, roof or grade below. The guard shall be constructed so as to prevent the passage of a sphere 21 inches (533 mm) in diameter. Exception: When approved by the authority having jurisdiction, guards are not required where permanent fall arrest/restraint anchorage connector devices that comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed not more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of the walking surfaces.

(OUBCC Amendment)

CHAPTER 11 CONSTRUCTION REQUIREMENTS FOR EXISTING BUILDINGS

Section 1101.1 Scope is hereby amended to read as follows:

1101.1 Scope. The provisions of this chapter shall apply to existing buildings constructed prior to the adoption of this code. Exception: Buildings or portions of a building that comply with the latest edition of the IEBC® or the edition that was adopted at the time a remodel occurred.

(OUBCC Amendment)

Section 1103.4.2 Three to five stories is hereby amended to read as follows:

1103.4.2 Three to five stories: In other than Group I-2 and I-3 occupancies, interior vertical openings connecting three to five stories shall be protected by either 1-hour fire-resistant-rated construction or an automatic sprinkler system shall be installed throughout the building in accordance with Section 903.3.1.1 or 903.3.1.2.

Exceptions:

- a) Vertical opening protection is not required for Group R-3 occupancies.
- b) Vertical opening protection is not required for open parking garages.
- c) Vertical opening protection for escalators shall be in accordance with Section 1103.4.5, 1103.4.6 or 1103.4.7.
- d) Exit access stairways and ramps shall be in accordance with Section 1103.4.8.
- e) Vertical openings that comply with the requirements of Section 803.2.1 of the IEBC®.

(OUBCC Amendment)

Section 1104.1 General is hereby amended to read as follows:

1104.1 General. Means of egress in existing buildings shall comply with the minimum egress requirements when specified in Table 1103.1 as further enumerated in Section 1104.2 through 1104.25 or the building code that applied at the time of construction, if, in the opinions of the building official and the fire code official, they do not constitute a distinct hazard to life. Existing buildings that were not required to comply with a building code at the time of construction shall comply with the minimum egress requirements when specified in Table 1103.1 as further enumerated in Sections 1104.2 through 1104.25.

(OUBCC Amendment)

Section 1104.18 Dead ends is hereby amended to read as follows:

1104.18 Dead ends. Where more than one exit or exit access doorway is required, the exit access shall be arranged such that dead ends do not exceed the limits specified in Table 1104.18. In Group I-2, in smoke compartments containing patient sleeping rooms and treatment rooms, dead end corridors shall be in accordance with Section 1105.5.6.

Exceptions:

- a) A dead-end passageway or corridor shall not be limited in length where the length of the dead-end passageway or corridor is less than 2.5 time the least width of the dead-end passageway or corridor.
- b) Dead ends that comply with the requirements of Section 805.6 of the IEBC®.

(OUBCC Amendment)

CHAPTER 23 MOTOR FUEL-DISPENSING FACILITIES AND REPAIR GARAGES

Section 2301.7 Liquid natural gas (LNG) motor fuel-dispensing facilities is hereby added to read as follows:

2301.7 Liquid natural gas (LNG) motor fuel-dispensing facilities. Liquid natural gas motor fuel-dispensing facilities. Motor fuel-dispensing facilities utilizing liquid natural gas (LNG) fuel shall comply with the requirements of Section 2303 and Chapter 55. (OUBCC Amendment)

Section 2302 Definitions is hereby amended to read as follows:

2302 Definitions. The following terms are defined in Chapter 2:

1. AIRCRAFT MOTOR-VEHICLE FUEL-DISPENSING FACILITY.
2. ALCOHOL-BLENDED FUELS.
3. AUTOMOTIVE MOTOR FUEL-DISPENSING FACILITY.
4. DISPENSING AREA.
5. DISPENSING DEVICE, OVERHEAD TYPE.
6. FLEET VEHICLE MOTOR FUEL-DISPENSING FACILITY.
7. LIQUEFIED NATURAL GAS (LNG).
8. MAIN RAILROAD TRACK.
9. MARINE MOTOR FUEL-DISPENSING FACILITY.
10. REPAIR GARAGE.
11. SELF-SERVICE MOTOR FUEL-DISPENSING FACILITY.

(OUBCC Amendment)

Section 2303.1 Location of dispensing devices is hereby amended to read as follows:

2303.1 Location of dispensing devices. Dispensing devices shall be located as follows:

1. Ten feet (3048 mm) or more from lot lines.
2. Ten feet (3048 mm) or more from buildings having combustible exterior wall surfaces or buildings having noncombustible exterior wall surfaces that are not part of a 1-hour-fire-resistance-rated assembly or buildings having combustible overhangs. Exception: Canopies constructed in accordance with the International Building Code® providing weather protection for the fuel islands.
3. Such that all portions of the vehicle being fueled will be on the premises of the motor fuel dispensing facility.
4. Such that the nozzle, when the hose is fully extended, will not reach within 5 feet (1524 mm) of building openings.
5. Twenty feet (6096 mm) or more from fixed sources of ignition.
6. Where compressed natural gas (CNG), LNG, or Hydrogen motor fuel-dispensing devices are installed beneath a canopy or within an enclosure, either the canopy or enclosure shall be designed to prevent the accumulation or entrapment of ignitable vapors, including provisions for natural or mechanical ventilation means, or all electrical equipment installed beneath the canopy or within the enclosure shall be suitable for Class I, Division 2 hazardous (classified) locations. Tank vents that are installed within or attached to the canopy or enclosure shall extend a minimum of 5 feet

(1524 mm) above the highest projection of the canopy. Compression and storage equipment located on top of the motor fuel-dispensing facility canopies shall be in accordance with current State of Oklahoma adopted International Fire Code®, Section 2309 and International Building Code®, Section 406.

(OUBCC Amendment)

Section 2303.2.1 Local emergency disconnect switches is hereby added to read as follows:

2303.2.1 Local emergency disconnect switches. A local emergency disconnect switch, provided within 20 feet (6096 mm) of any dispensing unit shall be interlocked with all other dispensing units of the same fuel type and all other dispensing devices located within 20 feet (6096 mm) of the local emergency disconnect switch.

(OUBCC Amendment)

Section 2303.2.2 Emergency disconnect switch lighting is hereby added to read as follows:

2303.2.2 Emergency disconnect switch lighting. Permanent lighting shall be provided during hours of operation in times of darkness at all dispensing devices, required signage, emergency disconnects and emergency shutdown controls. The lighting shall be designed to provide illumination such that all dispensing devices, required signage, emergency disconnect switches and emergency shutdown controls are visible to the operator.

(OUBCC Amendment)

Section 2304.3.7 Quantity limits is hereby amended to read as follows:

2304.3.7 Quantity limits. Dispensing equipment used at unsupervised locations shall comply with one of the following:

1. Dispensing devices shall be programmed or set to limit uninterrupted fuel delivery to 25 gallons (95 L) and require a manual action to resume delivery. Exception: Dispensing devices that are equipped with a listed breakaway device or equal approved by the Authority Having Jurisdiction. Such emergency breakaway device shall be installed, maintained and replaced in accordance with the manufacturer's instructions.
2. The amount of fuel being dispensed shall be limited in quantity by a preprogrammed card as approved.

(OUBCC Amendment)

Section 2307.3 Attendants is hereby amended to read as follows:

2307.3 Attendants. Motor fuel-dispensing operations for LP-gas shall be conducted by qualified attendants or in accordance with Section 2307.7 by persons trained in

the proper handling of LP-gas. Exception: When the dispensing equipment meets the guidelines of NFPA® 58 for "Low emission transfer" an attendant is not required. (OUBCC Amendment)

Section 2307.4.1 Low emission transfer is hereby added to read as follows:

2307.4.1 *Low emission.* When the dispensing equipment is installed in accordance with Section 6.28.5 of NFPA® 58 for "Low emission transfer," the transfer distance requirements in Table 6.5.2.1 and Section 6.25.4.3(1) of NFPA® 58 shall be reduced by one-half. (OUBCC Amendment)

Section 2307.7 Public fueling of motor vehicles is hereby amended to read as follows:

2307.7 *Public fueling of motor vehicles.*

1. Self-service LP-gas dispensing systems, including key, code and card lock dispensing systems, shall be limited to the filling of permanently mounted containers providing fuel to the LP-gas powered vehicle.
2. The requirements for self-service LP-gas dispensing systems shall be in accordance with the following:
 - a) The arrangement and operation of the transfer of product into a vehicle shall be in accordance with this section and Chapter 61.
 - b) The system shall be provided with an emergency shut-off switch located within 100 feet (30 480 mm) of, but not less than 20 feet (6096 mm) from dispensers.
 - c) The owner of the LP-gas motor fuel-dispensing facility or the owner's designee shall provide for the safe operation of the system and the training of users. Exception: If the LP-gas motor fuel dispensing facility meets the requirements of a low emission transfer station per NFPA® 58, then training of the users is not the responsibility of the facility.
 - d) The dispenser and hose-end valve shall release not more than 1/8 fluid ounce (4 cc) of liquid to the atmosphere upon breaking the connection with the fill valve on the vehicle.
 - e) Portable fire extinguishers shall be provided in accordance with Section 2305.5.
 - f) Warning signs shall be provided in accordance with Section 2305.6.
 - g) The area around the dispenser shall be maintained in accordance with Section 2305.7.

(OUBCC Amendment)

Section 2308.3.2 Warning signs is hereby added to read as follows:

2308.3.2 *Warning signs.* Warning signs complying with Section 310 shall be posted as follows:

1. Warning sign(s) shall be conspicuously posted within sight of each dispenser in the fuel dispensing area and shall state the following:
 - a) No smoking

- b) Shut off motor
 - c) Flammable Gas
 - d) Natural gas vehicle fuel cylinders shall be inspected at intervals not exceeding 3 years or 36,000 miles to ensure safe operation of the vehicle
 - e) Natural gas fuel cylinders past their end-of-life date shall not be refueled and shall be removed from service.
2. A warning sign with the words "No smoking, flammable gas" shall be posted in all compressor and storage areas.
 3. The lettering on the sign shall be legible and large enough to be visible from each point of transfer.
 4. The service pressure of each dispenser shall be posted in view of the operator.

(OUBCC Amendment)

Section 2308.4 Private fueling of motor vehicles is hereby amended to read as follows:

2308.4 Private fueling of motor vehicles.

1. Self-service CNG dispensing systems, including key, code and card lock dispensing systems, shall be limited to the filling of approved, permanently mounted fuel containers.
2. In addition to the requirements in Section 2305, the owner of a self-service CNG motor fuel dispensing facility shall ensure the safe operation of the system.

(OUBCC Amendment)

Section 2308.7 Emergency shutdown control is hereby amended to read as follows:

2308.7 Emergency shutdown control. A remote and local emergency manual shutdown device shall be provided. Upon activation, the emergency shutdown system shall automatically close valves between the main gas supply and the compressor and between the storage containers and dispensers, and automatically shut off the power supply to the compressor and the following associated devices: dispensing enclosures; remote pumps; power, control, and signal circuits; and electrical equipment in the hazardous (classified) locations surrounding the fuel dispensing enclosures. All labeled emergency shutdown devices shall be interconnected, whether required or not. Resetting from an emergency shutoff condition shall require manual intervention and the manner of resetting shall be approved by the Authority Having Jurisdiction. Exception: In time-fill applications, in lieu of a defined remote and local emergency manual shutdown device, an emergency manual shutdown device shall be provided within 50 feet (15 240 mm) of each fixed point of dispensing hose attachment and located inside and outside the compressor area within 10 feet (3048 mm) of the main access to the compressor area.

(OUBCC Amendment)

Section 2308.7.1 Remote emergency shutdown device is hereby added to read as follows:

2308.7.1 Remoted emergency shutdown device. A remote emergency manual shutdown device shall be located within 100 feet (30 480 mm) of, but not less than 20 feet (6096 mm) from all dispensing enclosures and shall be provided inside and outside the compressor area within 10 feet (3048 mm) of the main access to the compressor area. Exception: A remote emergency shutdown device may be located greater than 100 feet (30 480 mm) from one or more dispensing enclosures when within line of sight of the dispensing enclosures and approved by the Development Services Director or designee.
(OUBCC Amendment)

Section 2308.7.2 Local emergency shutdown device is hereby added to read as follows:

2308.7.2 Local emergency shutdown device. A local emergency manual shutdown device shall be located within 15 feet (4572 mm) of each dispensing enclosure.
(OUBCC Amendment)

Section 2311.4.3 Ventilation is hereby amended to read as follows:

2311.4.3 Ventilation. Where class I liquids or LP-gas are stored or used within a building having a basement or pit wherein flammable vapors could accumulate, the basement or pit shall be provided with mechanical ventilation in accordance with the International Mechanical Code®, at a minimum rate of 1 1/2 cubic feet per minute per square foot (cfm/square foot) [0.0008 cubic meters per (second meter squared)] taken from a point within 12 inches (305 mm) of the floor to prevent the accumulation of flammable vapors.
(OUBCC Amendment)

Section 2311.5 Preparation of vehicles for repair is hereby amended to read as follows:

2311.5 Preparation of vehicles for repair.

1. For vehicles powered by gaseous fuels, the fuel shutoff valves shall be closed prior to repairing any portion of the vehicle fuel system.
2. Vehicles powered by gaseous fuels in which the fuel system has been damaged shall be inspected and evaluated for fuel system integrity prior to being brought into the repair garage. The inspection shall include testing of the entire fuel delivery system for leakage. Liquefied Natural Gas (LNG) vehicles shall comply with Section 2311.5.1 as applicable.

(OUBCC Amendment)

Section 2311.5.1 Liquefied Natural Gas (LNG) is hereby added to read as follows:

2311.5.1 Liquefied Natural Gas (LNG). Liquefied Natural Gas (LNG) vehicle fuel system pressure shall be measured and recorded prior to entering the repair facility and at least every third day the vehicle remains in the building. Records shall be

posted on the windshield of the vehicle. The maximum allowable system pressure shall be no more than 170 psig. Pressure above 170 psig shall be reduced by operating the vehicle, or limited venting outdoors as required.
(OUBCC Amendment)

Section 2311.7 Repair garages for vehicles fueled by lighter-than-air fuels is hereby amended to read as follows:

2311.7 Repair garages for vehicles fueled by lighter-than-air fuels. Repair garages for the conversion and repair of vehicles that use CNG, liquefied natural gas (LNG), hydrogen or other lighter-than-air motor fuels shall be in accordance with Sections 2311.7 through 2311.7.2.3 in addition to the other requirements of Section 2311.

Exceptions:

- a) Repair garages where work is conducted only on vehicles that have been defueled and their systems purged with nitrogen gas, and where standard operating procedures to document and maintain the fueling status throughout the repair operations has been approved.
 - b) Repair garages where work is not performed on the fuel system and is limited to exchange of parts and maintenance not requiring open flame or welding on the CNG-, LNG-, hydrogen- or other lighter-than-air-fueled motor vehicle.
 - c) Repair garages for hydrogen-fueled vehicles where work is not performed on the hydrogen storage tank and is limited to the exchange of parts and maintenance not requiring open flame or welding on the hydrogen-fueled vehicle. During the work, the entire hydrogen fuel system shall contain a quantity that is less than 200 cubic feet (5.6 cubic meters) of hydrogen.
- (OUBCC Amendment)

Section 2311.7.1.1 Design is hereby amended to read as follows:

2311.7.1.1 Design.

- 1. Indoor locations shall be ventilated utilizing air supply inlets and exhaust outlets arranged to provide uniform air movement to the extent practical. Inlets shall be uniformly arranged on exterior walls near floor level. Outlets shall be located within 18 inches (457 mm) of the high point of the room in exterior walls or the roof.
 - 2. Ventilation shall be by a continuous mechanical ventilation system or by a mechanical ventilation system activated by a continuously monitoring natural gas detection system or, for hydrogen, a continuously monitoring flammable gas detection system, each activating at a gas concentration of not more than 25 percent of the lower flammable limit (LFL). In all cases, the system shall shut down the fueling system in the event of failure of the ventilation system.
 - 3. The ventilation rate shall be not less than 1 cubic foot per minute per square foot [0.0051 cubic meters per (second square meter)] of room area
- (OUBCC Amendment)

CHAPTER 55 CRYOGENIC FLUIDS

Section 5501.1 Scope is hereby modified to read as follows:

5501.1 Scope.

1. Storage, use and handling of cryogenic fluids shall comply with this chapter and NFPA® 55. Cryogenic fluids classified as hazardous materials shall also comply with the general requirements of Chapter 50. Partially full containers containing residual cryogenic fluids shall be considered as full for the purposes of the controls required. Exceptions:
 - a) Fluids used as refrigerants in refrigeration systems (see Section 606).
 - b) Liquefied natural gas (LNG), which shall comply with NFPA® 59 A.
 - c) LNG facilities for LNG vehicular applications, which shall comply with Chapter 23 and NFPA® 52.
 2. Oxidizing cryogenic fluids, including oxygen, shall comply with Chapter 63, as applicable.
 3. Flammable cryogenic fluids, including hydrogen, methane, and carbon monoxide, shall comply with Chapters 23 and 58, as applicable.
 4. Inert cryogenic fluids, including argon, helium and nitrogen, shall comply with ANSI/CGA P-18.
- (OUBCC Amendment)

CHAPTER 57 FLAMMABLE AND COMBUSTIBLE LIQUIDS

Section 5704.2.9.6.1 Locations where above-ground tanks are prohibited is hereby amended to read as follows:

5704.2.9.6.1 Locations where above-ground tanks are prohibited. Establishments of limits of districts in which storage of flammable liquids in outside above-ground tanks are prohibited.

- a. Storage of flammable liquids in outside above-ground tanks is prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.
- b. Bulk plants for flammable or combustible liquids are prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.

Section 5705.5 Alcohol-based hand rubs as Class I or II liquids is hereby amended to read as follows:

5705.5 Alcohol-based hand rubs as Class I or II liquids. The use of wall-mounted dispensers containing alcohol-based hand rubs classified as Class I or II liquids shall be in accordance with all of the following:

1. The maximum capacity of each dispenser shall be 68 ounces (2 L).

2. The minimum separation between dispensers shall be 48 inches (1219 mm)
 3. The dispensers shall not be installed above, below, or closer than 1 inch (25 mm) to an electrical receptacle, switch, appliance, device or other ignition source. The wall space between the dispenser and the floor or intervening counter top shall be free of electrical receptacles, switches, appliances, devices or other ignition sources.
 4. Dispensers shall be mounted so that the bottom of the dispenser is not less than 42 inches (1067 mm) and not more than 48 inches (1219 mm) above the finished floor.
 5. Dispensers shall not release their contents except when the dispenser is manually activated. Facilities shall be permitted to install and use automatically activated "touch free" alcohol-based hand-rub dispensing devices with the following requirements:
 - a) The facility or persons responsible for the dispensers shall test the dispensers each time a new refill is installed in accordance with the manufacturer's care and use instructions.
 - b) Dispensers shall be designed and must operate in a manner that ensures accidental or malicious activations of the dispensing devices are minimized. At a minimum, all devices subject to or used in accordance with this section shall have the following safety features:
 - (i) Any activations of the dispenser shall only occur when an object is placed within 4 inches (98 mm) of the sensing device.
 - (ii) The dispenser shall not dispense more than the amount required for hand hygiene consistent with label instructions as regulated by the United States Food and Drug Administration (USFDA).
 - (iii) An object placed within the activation zone and left in place will cause only one activation.
 6. Storage and use of alcohol-based hand rubs shall be in accordance with the applicable provisions of Sections 5704 and 5705.
 7. Dispensers when installed over a carpeted area shall have a guard or shield to prevent alcohol-based hand rub product from dispensing onto the floor.
- (OUBCC Amendment)

Section 5706.2.4.4 Locations where above-ground tanks are prohibited is hereby amended to read as follows:

5706.2.4.4 Locations where above-ground tanks are prohibited. Establishments of limits of districts in which storage of flammable liquids in outside above-ground tanks are prohibited.

- a. Storage of flammable liquids in outside above-ground tanks is prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.
- b. Bulk plants for flammable or combustible liquids are prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.

CHAPTER 58 FLAMMABLE GASES AND FLAMMABLE CRYOGENIC FLUIDS**Section 5806.2 Limitations is hereby amended to read as follows:**

5806.2 Limitations. Establishments of limits of districts in which storage of flammable liquids in outside above-ground tanks are prohibited.

- a. Storage of flammable liquids in outside above-ground tanks is prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.
- b. Bulk plants for flammable or combustible liquids are prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.

CHAPTER 61 LIQUEFIED PETROLEUM GASES**Section 6104.2 Maximum capacity within established limits is hereby amended to read as follows:**

6104.2 Maximum capacity within established limits. Establishments of limits of districts in which storage of flammable liquids in outside above-ground tanks are prohibited.

- a. Storage of flammable liquids in outside above-ground tanks is prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.
- b. Bulk plants for flammable or combustible liquids are prohibited in all areas except in those areas allowed under the zoning regulations of the City of Yukon.

Section 6106.1 Attendants is hereby amended to read as follows:

6106.1 Attendants. Dispensing of LP-gas shall be performed by a qualified attendant. Exception: When the dispensing equipment meets the guidelines of NFPA® 58 for "Low emission transfer" an attendant is not required.
(OUBCC Amendment)

Section 6106.2 Overfilling is hereby amended to read as follows:

6106.2 Overfilling. LP-gas containers shall not be filled or maintained with LP-gas in excess of either the volume determined using the fixed liquid-level gauge installed in accordance with the manufacturer's specifications and in accordance with Section 5.7.5 of NFPA® 58, the volume determined by the overfilling prevention device installed on the container, or the weight determined by the required percentage of water capacity marked on the container. Portable LP-gas containers shall not be refilled unless equipped with an overfilling prevention device (OPD) where required by Section 5.7.3 of NFPA® 58.
(OUBCC Amendment)

Secs. 38-22-38-39. Reserved

ARTICLE III – FIREWORKS

Sec. 38-40. - Manufacture, purchase, sale and use regulated.

Except as otherwise provided in this article, it shall be unlawful for any person to manufacture, purchase, sell, furnish, use or discharge any fireworks within the corporate limits of the city.

Sec. 38-41. - Prohibited types of fireworks.

- a. The sale, gift, distribution or use of skyrockets with sticks as defined by the United States Department of Transportation is prohibited. This prohibition shall include, but is not limited to, explosive devices commonly known as "bottle rockets" or "stick rockets."
- b. Any and all items of DOT 1.4G Explosives not properly labeled according to the United States Consumer Product Safety Commission and identified with the "DOT 1.4G Explosives" marking on each retail sale unit is prohibited.

Sec. 38-42. - Sale within city limits prohibited.

No person shall sell, or offer to sell, or install any facilities for the sale of any fireworks within the corporate limits of the city.

Sec. 38-43. - Public displays.

Supervised public displays of fireworks are authorized within the city, subject to the provisions of the laws of the state and subject to the prior approval of the City Manager and Fire Chief.

Sec. 38-44. - When discharge by individuals permitted.

The discharge of fireworks at any time by individuals within the corporate limits of the city is prohibited, except as a part of a supervised public display as provided for in section 38-43.

Secs. 38-45—38-39. - Reserved.

SECTION 2:

All other provisions established by this section shall remain the same, as if specifically set out herein.

SECTION 3:

That if any section, subsection, sentence, clause or phrase of this legislation is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The City of Yukon hereby declares that it would have passed this law, and each section, subsection, clause or phrase thereof,

irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional.

SECTION 4: EMERGENCY:

WHEREAS, it being immediately necessary for the preservation of the peace, health, safety and public good of the City of Yukon and the inhabitants thereof that the provisions of this ordinance be put into full force and effect, an emergency is hereby declared to exist by reason whereof this ordinance shall take effect, and be in full force from and after its passage, as provided by law.

PASSED AND APPROVED this 18TH day of AUGUST, 2020, with the Emergency Clause passed separately.
